

Venlo, February 2009

## PRESS RELEASE

### Scheuten Solar builds 2 MW PV Power Plant for GreenFever in Veurne, Belgium

Scheuten Solar and GreenFever, the initiator of “Zonnepark Veurne” announce the signing of a turn key delivery (EPC) and operations & maintenance (O&M) contract for the 5 hectare free field PhotoVoltaic (PV) Power Plant in Belgium.

With the signing of this contract GreenFever initiates Scheuten Solar to realize the 2 MW PV Power Plant in Veurne.

“We decided for Scheuten Solar as our partner for the complete realization and maintenance of our PV Power Plant. Scheuten Solar is a very professional organization with vast expertise and knowledge in large PV Power Plants”, says Maarten De Cuyper and Stijn Lenaerts of GreenFever.

“We see a lot of potential for Solar in Belgium”, says Evert Vlaswinkel CCO at Scheuten Solar: “We are proud to team-up with GreenFever and to design and construct this turn key PV Power Plant.”

Zonnepark Veurne is located in the sunniest part of Belgium. The realization of the project will start in February, and in May the system will be connected to the power grid. At that moment, it will be one of the biggest operational PV Power Plants in Belgium.

- END -

*Scheuten is a leading and fast growing international high volume manufacturer of total solutions in glass and solar energy systems with its head office in Venlo. Scheuten employs a staff of nearly 1600 and has realised a turnover in 2008 of 467 million euros. Scheuten continually invests in new developments. New innovative glass products are developed by combining knowledge from all its production facilities. Cooperation with leading universities and research institutes leads to sustainable, functional solutions in the fields of glass and solar technology.*

*GreenFever is a sustainable energy company, with a primary focus on the development of large power plants in Belgium. It was founded early 2008 by Maarten De Cuyper and Stijn Lenaerts. See [www.greenfever.be](http://www.greenfever.be) for more details.*
